Personal Protective Equipment/PPE

AllPro USA has implemented the following procedures for Personal Protective Equipment/PPE. Be certain to familiarize yourself with the type of PPE that is required for your project. Depending on the project, the required PPE may change from one site to another.

The correct Personal Protective Equipment/PPE is a strict requirement for all projects. You may see other companies' team members not wearing the required PPE on a project site, this does not excuse you from wearing your PPE.

Depending on the project your Personal Protective Equipment/PPE may include the following items. These items are standard for most all of the job sites we will be working.

- Steel Toe Safety Boots
- Safety Glasses
- Ear Protection
- Hi Visibility Safety Vest
- Hard Hat

Failure to wear the proper Personal Protective Equipment/PPE will result in a warning or other action that may include suspension or termination.
